ACTS OF INCORPORATION.

An Act to Incorporate the Medical Society of South-Carolina.

WHEREAS, Alexander Baron, Physician, and President of the MEDICAL SOCIETY OF SOUTH-CAROLINA, in behalf of the Members now composing said Society, hath petitioned the Legislature of this State, to be admitted a body corporate and politic, in name and deed, by the name of the MEDICAL SOCIETY OF SOUTH-CAROLINA :

BE IT THEREFORE ENACTED BY THE HONORABLE THE SENATE AND HOUSE OF REPRESENTATIVES, NOW MET AND SITTING IN GENERAL ASSEMBLY, AND BY THE AUTHORITY OF THE SAME, That all those who now belong to, and all those who shall be hereafter duly admitted, or become members of that Society, according to the rules, orders, and constitution of the said Society, formed or to be formed, shall be, and they are hereby declared to be, one established body, corporate and politic, in deed and in name, by the name and style of the MEDICAL SOCIETY OF SOUTH-CAROLINA, and by the same name shall have perpetual succession of officers and members, and a common seal, with power to change, alter, break and make new the same, as often as the said Corporation shall judge expedient ; and the said Corporation and its successors, shall be able and capable in law to purchase, have, hold, receive, enjoy, possess and retain to itself, and to its successors, in perpetuity or for any term of years, any estate or estates, lands, tenements, or hereditaments of any kind or nature soever, not exceeding the annual income of three hundred pounds sterling ; to sell, alien, exchange, devise or lease the same, or any part thereof, as they shall think proper ; and may by the said name sue and be sued, implead and be impleaded, answer, and be answered unto, in any court of law or equity in this State ; and to make such rules and by-laws (not repugnant to the laws of the land) for the benefit of the said Corporation, and for the order, rule, good government and management of said Corporation, as shall from time to time be agreed upon by a majority of the members of the said Corporation.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That it shall and may be lawful for the said Corporation hereby erected, to take and to hold to it and its successors for ever, any donations or devises of lands and personal estates, not exceeding in the whole the annual sum of three hundred pounds sterling, and appropriate the same for the benefit of the said Corporation, in such manner as may be determined on by a majority of the members thereof.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That the said Corporation shall be, and it is hereby declared able and capable in law, to have, hold and receive, enjoy, possess and retain all such estates, real and personal,

money, goods, chattles and effects, not exceeding in the whole the annual income of three hundred pounds sterling, which it now possesses, or is entitled to, or which have been already given, devised or bequeathed to it, by whatever name that devise or bequeath may have been made.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That this act shall be deemed and taken as a public act, and notice shall be taken thereof in all courts of justice, and elsewhere, in this State; and shall be given in evidence on the trial of any issue or cause, without special pleading.

In the Senate House, May the tenth, Anno Domini one thousand seven hundred and ninety-four, and in the eighteenth year of the Independence of the United States of America.

DAVID RAMSAY,
PRESIDENT OF THE SENATE.
JACOB READ,

SPEAKER OF THE HOUSE OF REPRESENTATIVES.

**An Act to regulate the Licensing of Physicians to practice, and for other purposes therein mentioned.*

BE IT ENACTED BY THE HONORABLE THE SENATE AND HOUSE OF REPRESENTATIVES, NOW MET AND SITTING IN GENERAL ASSEMBLY, AND BY THE AUTHORITY OF THE SAME, That from and after the passing of this Act no person or persons shall be allowed to practice Physic or Surgery, or any of the branches thereof, or in any case to prescribe for the cure of diseases, for fee or reward, unless he or they shall have been first licensed to do so, in the manner hereinafter prescribed.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That if any person or persons shall hereafter presume, without such license, to practice Physic, Surgery, or in any manner prescribe for the cure of diseases, for fee or reward, he or they shall be liable to be indicted, and on conviction thereof, shall be fined not exceeding the sum of five hundred dollars, and be imprisoned, not exceeding the term of two months; one half the fine to the use of him who shall inform, and the other half to the use of the State.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That on the trial of all indictments, for any of the offences enumerated in this Act, it shall be incumbent on the defendant to show that he has been licensed to practice Physic and Surgery, and to prescribe for the cure of diseases, in the manner hereinafter mentioned, to exempt himself from the penalties enumerated in this Act.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That all bonds notes, promises and assumptions, made to any person or persons not licensed in manner hereinafter mentioned, the consideration of which shall be services rendered as a Physician or Surgeon in prescribing for the cure of diseases, shall be and they are hereby declared utterly void, and of no effect.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That in order to the proper regulation of the practice of Physic and Surgery, there shall be established two Boards of Physicians, one at Charleston, and the other at Columbia

*By an Act of the Legislature passed in 1838, the 2d, 3d, and ninth sections of this Act are repealed, so far as regards the pains and penalties imposed therein.—A. A. 1838, p. 39.

who shall at their annual meetings, examine all applicants, and if on such examination they are found competent, shall grant to such applicants a license to practice Physic and Surgery: PROVIDED, That three members of either of the said Boards shall constitute a quorum to make such examination, and grant such license: and provided also, that if any applicant shall have studied and received a Diploma from any Medical College, the said Board or Boards, or a quorum of either of them, shall license the said applicant to practice, without examination; and provided also, that no person shall be so licensed, unless he shall prove to the satisfaction of the Board, that he has studied Medicine and Surgery under the direction of some regular bred practicing Physician for at least two years.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That the Medical Society of South-Carolina, shall constitute the Board of Physicians at Charleston; and the following persons shall constitute the Board of Physicians at Columbia, to wit: Edward Fisher, James Davis, Edward D. Smith, George P. Hasell, G. W. Phillips, Burr Johnson, George W. Glenn, Wm. Bratton, Joseph W. Waldo, Andrew Moore, George Ross, Edward H. Anderson, Wm. Blanding, Thos. Casey, V. D. V. Jameson, James Ainsworth, Oliver Hawes, A. S. Moore, Peter Keane, Robert Campbell, Walter O. Bickley, Eber Smith, Richard O. Scriven, Abraham Deleon, Wm. Langley, Benjamin Harris, Barkley Jones, Roderick Murcheson, Swepson Cox, Benjamin Clapp, Richard Harrison, Isaac Auld, John M'Iver, and John Dunham.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That the annual meeting of the Board of Physicians at Columbia, shall be held in the town of Columbia, on the Wednesday after the first Monday in December, in each and every year; and that the said Boards at Columbia and Charleston, shall be entitled to receive and demand of every applicant when licensed, the sum of Five Dollars for each and every examination, and the sum of Five Dollars for every license.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That no part or clause of this Act, shall have any operation or effect upon any person now practicing Medicine or Surgery within this State.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That no Apothecary within this State, shall hereafter be permitted to vend or expose to sale, any Drugs or Medicines, without previously obtaining a license to do so, from the Medical Society of South-Carolina, or Board of Physicians created by this Act. And every Apothecary so vending or selling Drugs or Medicines, contrary to the provisions of this Act, shall be liable to all the Penalties imposed by this Act, on Physicians and Surgeons practising without a license: PROVIDED, That nothing herein contained be construed to prevent merchants or shopkeepers from vending or exposing Medicines for sale, already prepared.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That the Medical Society of South-Carolina, and the Board of Physicians created by this Act, shall have the power to examine any Apothecary who may apply to them for a license, touching their knowledge of Drugs and Pharmacy, and on finding such person qualified, shall grant such license, and receive therefor the same fees as provided in this Act for license to practice Medicine and Surgery.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That twelve months shall be allowed to every Apothecary now in the State, to obtain the necessary license.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That the Medical Society of Charleston, or any three members of the Board of Physicians at Columbia, be, and they are hereby authorized, during the recess of the annual Board, to examine any applicants, and if on examination, deemed competent to practice Medicine and Surgery, shall grant them permission to practice until the next annual meeting of the Board of Physicians, at Charleston or Columbia, to whom they shall make application for a license to practice Medicine and Surgery, and if refused shall not again be permitted to practice, except by a license from one of the Boards.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That the said Medical Board at Columbia, be, and they are hereby authorized and empowered, to elect all such officers, and frame all such by-laws, as may be necessary to carry this Act into effect; and in case of the death, removal, or refusal to serve, of any member of the said Board, the said Board or a quorum of them, be, and they are hereby empowered to fill up every such vacancy.

AND BE IT FURTHER ENACTED BY THE AUTHORITY AFORESAID, That if any of the members by this Act appointed to constitute the Board of Physicians to meet at Columbia, shall fail to attend the meeting of the said Board of Physicians for three successive annual meetings of the same, he shall be no longer considered a member thereof; and it shall be the duty of the presiding member, at each meeting of the said Board to note the defaulters at such meeting.

Ratified in the Senate Chamber, December eighteenth, one thousand eight hundred and seventeen.

JAMES R. PRINGLE,

PRESIDENT OF THE SENATE.

THOMAS BENNETT,

SPEAKER OF THE HOUSE OF REPRESENTATIVES.

An Act to Incorporate certain Societies, and for other purposes:

WHEREAS, the Medical Society of South-Carolina has taken measures for the establishment of a Medical School in Charleston, to be conducted by Professors chosen by the Society, and at its own expense, and has petitioned for the authority to confer Medical Degrees; and whereas it is the duty of an enlightened government to aid the advancement of Science:

BE IT THEREFORE ENACTED, That from and after the passing of this Act, the Medical Society of South-Carolina shall be, and they are hereby authorized to organize a Medical School, to consist of such professorships as they may deem expedient, and to confer Medical Degrees upon such candidates as may qualify themselves therefor, under the regulations which they may establish.

In the Senate House, the twentieth day of December, in the year of our Lord, one thousand eight hundred and twenty-three, and in the forty-eighth year of the Independence of the United States of America.

JACOB BOND PION,

PRESIDENT OF THE SENATE.

THOMAS BENNETT,

SPEAKER OF THE HOUSE OF REPRESENTATIVES.

COPY OF WILL OF LATE THOS. ROPER.

I, THOMAS ROPER, of the City of Charleston, in the State of South-Carolina, mindful of the uncertainty of life, and absolute certainty of death, do, whilst of disposing mind and memory, declare this, my last will and testament, hereby giving, devising, and bequeathing to my only offspring, Robert William Roper, his heirs, and assigns for ever each and every part, and parcel of my estate, real and personal, whatsoever and wheresoever, with the exceptions following:

I bequeath fifteen hundred dollars of the five per cent stock of this State to the Second Independent or Congregational Church in Charleston, usually denominated the Unitarian Church; being a congregation of Christians who unrestrained by Ecclesiastical or other authority, and unshackled by any speculative creed, worship one Supreme being and "Him only," nevertheless attach, as a condition to the bequest, that neither the said fifteen hundred dollars, or any part thereof shall be expended, transferred, or otherwise appropriated until the first day of January, 1846, anterior to which day and year the interest to grow due on the said fifteen hundred dollars may, if necessary, be expended as it accrues. Inasmuch as the said stock is not subject to redemption before the first day of January, 1846, I do, from and after such period authorize the corporation of said Second Independent Congregational Church, being a fellowship of Christians for the worship of "the only true God," to appropriate the said fifteen hundred dollars, or any component part thereof, in any way or manner they shall then deem most beneficial for the future interest of the said Church. To my nephew George Williams, of the Kingdom of Great Britain, I give four hundred dollars.

Item. Should my son, Robert William Roper die without living or posthumous issue, and such issue die under twenty-one years of age without lawful issue, I, in such case will and direct that my lands and houses in Charleston be disposed of as is hereinafter specified, but I intend not by such specification to restrict my son from selling, bartering or otherwise disposing of any part or parcel of such lands and

houses, contingently devised to him, his heirs and assigns forever ; on the contrary I hereby authorize and empower him whenever he shall see fit, to make valid and sufficient titles for the sale of any and every part of the property I die possessed of ; *Provided*, such sale, barter or other disposition thereof be for an adequate and bona fide consideration, it being my design should my son die without living or posthumous issue, or leaving issue, such issue die under twenty-one years of age without lawful issue, that my real estate in Charleston, or the intrinsic value thereof shall vest in the mode I have hereinafter specified.

Item. I herein moreover further declare, that my lands in Charleston shall, under no condition or consideration whatever, be subject in whole or part to any right or claim of Dower, which the widow of my said son may claim or demand under any pretence or inferable right whatsoever ; yet, I intend not to inhibit or restrain my said son, should he die without issue, from affording his widow, so long as she may remain such, but no longer a residence in my present dwelling on East Bay, she paying the taxes and annual insurances, during such her occupancy, and keeping the adjacent buildings connected therewith in thorough repair.

Item. It is my will that the brick buildings as devised by me be kept in proper repair, and if they be not severally insured, such of them as are now covered by a Policy, shall as at present, continue to be annually insured, either under each of the specified policies or on such other terms and ratable proportions as shall be deemed most advisable.

Item. Should my son, Robert William Roper die without issue, or leaving posthumous issue, then and only then I make the following disposition of my estate :

To my nephew, George Williams, I bequeath four hundred dollars, and a like sum to my friend Robert Williams, of Kentish Town, near London, in the Kingdom of Great Britain. To each of my slaves, Robert and his sister Peggy, I severally give an annuity of one hundred dollars to be paid to them respectively in semi-annual payments. To the Charleston Library Society I leave all such of my books excepting those in manuscript, as may not have been retained by my son. The volumes of my folio Bible, if not otherwise bestowed by my said son, I give to the Unitarian Library Society, enjoining it on them not to permit either volume to be taken out of the Library for private perusal ; the corrected text and manuscript notes interspersed through

out these volumes, were chiefly derived from the most eminent translators and commentators, and though necessarily limited, do as far as the space there afforded would admit, point out numerous errors in the vernacular version of the Bible now in general use.

Item. Should my son die without issue or leaving posthumous issue, such issue die under age without lawful issue, I give and devise to the Charleston Medical Society all my landed estate on East Bay and Queen street, consisting of the several lots and houses thereon, now known by the following numbers, viz: on East Bay by the numbers 157, 159, 161 and 163, and on Queen-street by the numbers 2, 4 and 6 with their and each and every of their appurtenances, together with their rents, income and proceeds of such devise from the time on which the said Society may become possessed thereof, or if immediately sold, then of the value of such sales, with the income and interest thenceforward to accrue thereon, to enable the said Charleston Medical Society, after the lapse of fourteen years ownership of such property, or its intrinsic value, and not at any earlier period, unless earlier they be sufficiently enabled from other adequate means, to erect, maintain and regulate a hospital of such dimensions as they in their better judgment may direct, for the permanent reception or occasional relief of all such sick, maimed and diseased paupers as need surgical or medical aid, and whom without regard to complexion, religion, or nation, I would they should admit therein. The site of the said Hospital or Infirmary to be in or near Charleston.

Item. I hereby authorize and empower the said Charleston Medical Society to sell and make valid titles for any or all such property as under any contingent devise may vest the fee simple in them, they taking a mortgage for the same if sold on credit.

Item. I make chargeable the funded and bank stock, which will devolve on my son, as a residuary part of my estate, with the payment of the several conditional legacies and annuities herein before specified.

Lastly, I appoint my said son my Executor, but should he depart this life without living or posthumous issue, I in such case nominate as the Executor of my Will, the President of the Charleston Medical Society for the time being, and his successor or successors in the office of President of the said Society, such Executors acting in strict subervience to the trust I have specially confided in the said Charleston Medical Society.

Whereas on the making and executing the foregoing Will, dated the 4th March in the current year, I conditionally gave and devised to the Medical Society of Charleston (when it would seem no such Society exists) certain lands, but have subsequently discovered the said Society was incorporated by the name and style of the Medical Society of South-Carolina, of which Dr. Thos. Y. Simons is at this time President, I therefore, under such their corporate name, confirm my said conditional donation, they conforming to the several requisitions I have imposed.

CONSTITUTION AND BY-LAWS

OF THE

MEDICAL SOCIETY.

SECTION I.

OF MEETINGS AND OFFICERS.

ARTICLE 1. The MEDICAL SOCIETY shall have an anniversary meeting, which shall be held at 12 o'clock on the second Monday in December, at which a President and Vice-President shall be elected every second year, a Secretary and Treasurer every year (as officers of the Society); a Librarian, three members to constitute a Committee on Accounts, and three for a Book Committee, shall also annually be chosen. A majority of the votes given in by the members present, taken by ballot, shall in all cases determine the choice.

ART. 2. At every anniversary, after the business of the day, the Society shall dine together. The stewards shall at their discretion, provide a sufficient dinner—for defraying the expenses of which every ordinary member within the lines shall pay the sum of four dollars.

ART. 3. The Society shall also have stated monthly meetings, on the first day of every month, Sundays excepted; in which case, the meeting shall be held on the Monday following. The time of meeting shall be 12 o'clock.

ART. 4. On all extraordinary occasions, the President or Vice-President is authorized to convene the Society, or at any time, when it shall be requested in writing by three of the members.

SECTION II.

DUTIES OF THE OFFICERS.

ARTICLE 1. When five members are present, the President, Vice-President, or in their absence, the senior member

present, shall take the chair and constitute the Society, precisely at the hour above mentioned.

ART. 2. The member presiding shall preserve order and decorum, put all questions, declare the vote or opinion of the majority on any subject, sign all acts of the Society, and on the first day of every December, appoint a committee to examine the Treasurer's books, and report on the same at the ensuing anniversary; but he shall not interfere in any debate without permission.

ART. 3. It shall be the duty of the presiding officer, at every monthly meeting of the Society, to request the members present to communicate information respecting the weather and diseases of the preceding month, and direct the Secretary to sum up the whole and enter it in the journal. It shall be his duty further to request the members to furnish the Society with any remarkable cases that may have occurred in their practice; which, when communicated in writing by the members who offer them, shall at the direction of the Society, be recorded by the Secretary in the medical journal of the same. It shall be his duty, likewise, at each monthly meeting of the Society, to propose some medical or philosophical question for discussion at the ensuing meeting, unless it shall be rendered unnecessary by the discussion of a dissertation.

ART. 4. The President shall prepare and read biennially, at the expiration of his term of office, a review of the weather and diseases of the two preceding years, together with such medical observations as may appear to him to be useful and connected with the objects of the institution; which address shall be published by the Society.

ART. 5. The President shall appoint two stewards to provide a suitable dinner for the anniversary, at any reasonable period previous to that day.

ART. 6. The Secretary shall keep all papers, record the transactions of the Society, correspond with such other institutions as he may be directed by the President, summon the members, and notify in writing to newly elected members their election, quoting the conditions necessary to entitle them to the rights of membership, and the consequences of their non-compliance, as per Art. 4, Section viii. The Secretary to be exempt from all annual contributions. An honorary mem-

ber acting as Secretary, is entitled to receive for his services, from the Society, the amount of the annual contribution of an ordinary member.

ART. 7. It shall be the duty of the Secretary to employ a person to transcribe such manuscripts as the Society may think necessary; and the President is hereby authorised to draw on the Treasurer for payment of the same. He shall also paste in the book provided for that purpose, all reports which shall have been read and adopted, and index the book properly. It shall be his duty further to notify the members of the meetings of the Society, by advertising in the two morning papers on the day previous to such meetings. It shall be his duty also, to publish the name of every person hereafter admitted a member of this Society, after he shall have conformed to the rules.

ART. 8. The Treasurer shall receive all contributions, legacies and donations to the Society, or fines incurred by the members; pay all such sums as he may be authorised to do by the rules and resolutions, take into his custody all the ready money, bonds or other securities of the Society, and keep a fair and just account of the same, together with a proper schedule of the arrears due by the members, and of his receipts and expenditures; and on the first of December of every year, or whenever called upon, shall render to the Society a just and true account of them. It shall be his special duty within the month of January, to notify every member, in writing, of the state of his account with the Society, and that unless payment be made by the first of July ensuing, he will be sued for the same; and the Treasurer is hereby directed to proceed against every defaulter without further ceremony. It shall be his duty also, to collect all dues to the Society; and as a satisfaction for the execution of these duties of his office, he shall be entitled to receive a commission of five per cent. on all collections made. Furthermore, he shall give bond to the Society, with one or more securities, to be approved of by the President, and in his absence the Vice President, for the amount of One Thousand Dollars, with proper conditions annexed thereunto; which bond shall be lodged with the President of the Society.

SECTION III.

OF ADMISSION OF MEMBERS, AND THEIR DUTIES.

ARTICLE 1. The Society shall not be confined to any number, but shall be open to any gentleman of merit in the medical profession; it being understood that those who have not studied medicine in Carolina, shall have resided in the State twelve months previous to their application, and that no one shall be admitted a member until he shall have obtained a license to practice physic and surgery according to law. Such, therefore, as choose to become members, must address themselves to the President and members, stating the opportunities they have had of qualifying themselves for the practice of physic. The letter shall be read at one stated meeting, and at the next the candidate shall be balloted for, and admitted provided he has a majority of three-fourths of the members present, in his favor.

ART. 2. No candidate shall be balloted for, unless there be nine members present.

ART. 3. Every gentleman on entering the Society, shall sign the laws and obligation thereof, and pay into the hands of the Treasurer, the sum of twenty dollars; without which, no person hereafter admitted shall be considered a member, or entitled to the rights of such.

ART. 4. Every member residing within the lines, shall pay into the hands of the Treasurer, the sum of ten dollars, and every country member five dollars annually, which payment shall be due on the anniversary. Newly admitted members shall pay in proportion to the time since admission.

ART. 5. No resignation of membership to the Society shall be accepted, unless the same is signified in writing to the Society, and all arrears paid to the date of the resignation.

ART. 6. Every member shall address the President standing, and no member shall be interrupted while speaking, unless he is called to order by the President; nor shall any member speak more than twice upon any question or subject, unless permitted by the President.

OBLIGATION.

"By subscribing my name to the laws of the Medical Society of South-Carolina, I do publicly declare that I will strictly and faithfully adhere to the charges prescribed by the fee bill of the Society; reserving to myself the right of making a deduction on the face of my account, whenever it shall be required by the pecuniary circumstances of the patient. That I regard the entering into contracts with

individuals, or families, for medical services rendered, a violation of the spirit and letter of this obligation, and not only disreputable, but detrimental to the interests of the Society; and that I will be careful that every member shall subscribe this obligation, as I now do, in the presence of the Society."

The obligation shall be read aloud by the Secretary, and signed by the newly elected member, in the presence of the Society.

SECTION IV.

OF CORRESPONDING MEMBERS.

ARTICLE 1. Medical gentlemen residing without the State, may be admitted as corresponding members, under the same regulations as ordinary members; but shall be excused from paying any contributions, and be excluded from all participation in the funds and library of the Society; they may nevertheless, attend all meetings, furnish papers when convenient in their turn, or furnish such medical or philosophical intelligence as they may deem worthy the notice of the Society.

ART. 2. Ordinary members, leaving the State, shall be placed upon the footing of corresponding members.

ART. 3. The form of a certificate for a corresponding member shall be the same as for honorary members, except, that instead of the words "*inter honorarios*," the words "*inter consiliorum socios*," be inserted.

SECTION V.

OF HONORARY MEMBERS.

ARTICLE 1. The Society agree to have honorary members; such are to be proposed at any of the monthly meetings, and ballotted for at the next. They shall be elected after the same mode as other members, but not subject to the payment of contributions. Certificates of their admission as honorary members, shall be transmitted to them at the expense of the Society.

ART. 2. Every member of this Society, who shall have contributed for fifteen years to the funds of the Society, shall become in course an honorary member, and shall thenceforth pay an annual contribution of five dollars only, and be excused from all other fines and contributions, excepting those for the detention of books, and for anniversary dinner, when-

ever he may choose to dine with the Society; provided all arrears that may be previously due shall have been fully settled by such member.

SECTION VI.

OF DISSERTATIONS.

ARTICLE 1. Twelve members, to be appointed by the President on the day of the anniversary, shall read in rotation, at each monthly meeting, a dissertation on some medical or philosophical subject, which shall be open at the time for discussion, having been announced the meeting previous. At the same time, twelve other members shall be appointed as alternates, who shall read in case of failure of the regular essayists; and in the event of the non-occurrence of any such failure, said alternates shall be the regular essayists for the ensuing year, the President duly appointing their alternates for that year. But any alternate who may have been compelled to perform in place of his principal, shall be exempt for the ensuing year, and his place be supplied by appointment at the proper time.

ART. 2. Every paper read before the Society, shall become the property thereof; and it shall be the duty of the author, to furnish the Secretary with a copy of the same, under penalty of ten dollars in case of neglect.

ART. 3. Any regular monthly essayist, who, after accepting the appointment, shall fail to inform the President of his subject at the meeting previous to its delivery, in order that it may be announced; or who shall fail to read the same, or provide a substitute to read his paper, in case of his necessary absence at the appointed time, shall be subject to a fine of ten dollars. He shall, nevertheless, in case of his total failure, still be required to furnish the Secretary with a written paper on some medical or philosophical subject, within three months after; in default of which, he shall be liable to a further fine of ten dollars.

ART. 4. No paper shall occupy in the reading more than thirty minutes, and every member who reads, shall deliver to the President, immediately after so doing, a summary of the leading contents of his paper, which shall then be read, paragraph by paragraph, so as to regulate the discussion.

ART. 5. The Society shall enter into an election biennially

for a committee of publication, to consist of five members, whose duty it shall be to collect and arrange for biennial publication, as a volume of transactions, all papers read by the members, (including the President's addresses) or other instructive matter adapted to advance the science, or conducive to the welfare of the Society. They shall also lay before the Society for its supervision and approval, a detailed statement of all matter so prepared, at a reasonable time before publication.

SECTION VII.

OF CERTIFICATES.

ARTICLE 1. *Description of the Society's Seal.*—In the centre is a representation of the temple of health, within whose portals is seen an arm extending a laurel wreath; the three steps leading to it are engraved with the words "DILIGENTIA," "SCIENTIA," "BENEVOLENTIA;" and upon the cornice of the dome is seen the motto, "SACRUM SALUTI;" around its margin are the words, "SIGILLUM SOCIETATIS MEDICÆ CAROLINÆ AUSTRALIS INSTITUTÆ 1789;" and agreeably to the rules of the Society, no certificate "shall be valid, unless it have the seal of the Society affixed thereto."

ART. 2. The form of a certificate for an Ordinary member, shall be as follows, viz :

SOCIETAS MEDICA CAROLINÆ AUSTRALIS, Anno Domini MDCCLXXXIX instituta.
Omnibus ad quos hæc pervenerint, salutem.

Viro ornato, A. B. qui in numerum nostrum anno ——— fuit admissus, (quique medicinam insigni cum commodo mortalium, suaque laude maxima fecit) hoc munus liberis sociorum suffragiis, lubentissime conseditur—Diu vivat, et floreat patriæ, scientiarumque decus; utque Societas hæc semper illius, sic ejusdem memor, perstet.

In quorum fidem, communi societatis sigillo munitam, nomina nostra subscripsimus Carolopili, anno salutis humanæ millesimo, &c.

N.B. The words, "*quique medicinam insigni cum commodo mortalium, suaque laude maxima fecit,*" shall always be omitted in case of the application of a member, for a certificate of admission, who has practiced less than three years; and in every other case where a majority of the Society shall determine by ballot to leave them out.

ART. 3. The form of a certificate for an Honorary member, shall be as follows:

SOCIETAS MEDICA CAROLINÆ AUSTRALIS, anno humano salutis, instituta MDCC-LXXXIX, et reipublicæ auctoritate, anno MDCCXCIV, confirmata. Omnibus has literas perlecturis, salutem.

Placuit nobis, hujusve institutionis sociis, A. B. constituere, et pro meritis, virtutibus, peritiisque, eum accipere inter honorarios ejusdem, et ei donare fruendi auctoritatem immunitatibus privilegiisque omnibus ad eandem pertinentibus. In quorum fidem has literas, manibus nostris sigilloque societatis munitas, lubentissime donamus. Carolopoli, Anno Domini, millesimo, octingentissimo, &c.

SECTION VIII.

OF PENALTIES.

ARTICLE 1. Every member neglecting to pay his annual contribution when due, shall be dealt with according to Art. 8, Sec. ii.

ART. 2. In case of any improper conduct as a gentleman, in any member of this Society, the offender shall be punished by expulsion, or in such other manner as a majority of two-thirds of the members present shall think proper.

ART. 3. Any person hereafter admitted a member of this Society, and being duly notified of such admission by the Secretary, who shall not for three months after such notice, sign the laws of the Society, and conform thereto, shall be, and the same is hereby declared to have forfeited his right to membership, and a new application and election is hereby declared necessary for his admission as before.

ART. 4. Any President who may fail to prepare his address, and to deliver a fair copy to the committee who may be charged with its publication, shall be fined in the sum of fifty dollars.

ART. 5. Every member who leaves the Society during its convention, without permission from the President, shall be fined fifty cents.

SECTION IX.

OF VISITERS.

ARTICLE 1. Medical gentlemen of character, occasionally visiting Charleston, may be introduced as visitors, by any member, after the private business of the Society has been transacted; *provided*, they do not exceed five at any one period, and that information be lodged with the President, or in his absence, the Vice President, one day previous to the meeting. It is understood, that the member who introduces, stands pledged for the respectability of the character introduced.

SECTION X.

OF THE LIBRARY.

ARTICLE 1. A Librarian shall be chosen by ballot, at each Anniversary meeting of the Society, who shall have charge of all things appertaining to the Library, and who shall receive for his services the sum of one hundred dollars per annum. He shall keep open and attend at the Library room on Monday, Tuesday, Thursday and Friday, of each week, during the hours of 12 to 2 o'clock, on each day. He shall keep an invoice book, in which shall be entered the present catalogue, and all books purchased, as soon as they are delivered to him by the Book Committee, and for all books thus delivered, he is to be personally answerable. He shall give out such books as may be called for by members, carefully noting down the persons by whom, and the time when books are taken out, and receive such as are returned with the like care. He shall also subscribe for and receive such periodical works as may be selected by the Book Committee.

ART. 2. The Librarian shall be required to give a receipt for the books which shall be delivered into his charge, and a bond with sufficient security, for five hundred dollars, obligating himself to indemnify the Society for losses resulting from negligence, or inattention to his duties.

ART. 3. A Committee of Three shall also be elected by ballot at the annual meeting, as a Book Committee, with the President *ex officio*, whose duty it shall be to purchase for the Society such books as they may deem proper to be added to the Library. They shall be empowered to draw on the Treasurer for the moneys thus spent, and shall be considered individually responsible to the full amount, until the books are placed in the hands of the Librarian, and entered in his books. They shall inspect the state of the Library, and of the Librarian's books, and make annually in November, a full and comprehensive report on the matters committed to their care.

ART. 4. No member shall take from the Library at or during the same time, more than two sets of books, which he may keep out for the following periods: 4tos, of less than 200 pages, twelve days, for each volume; if over 200 pages, twenty-five days; 8vos and under, ten days, for each volume,

or if taken out by the single volume, each may be kept fourteen days. If a set of books comprises more than 5 volumes, only that number (viz. 5) shall be taken out at once. Folios, and books of plates, shall not be taken out of the Library.

ART. 5. The time allowed to country members, shall be double that allowed to members within the lines.

ART. 6. In cases where a book, or set of books, has been in the hands of a member, during the time allowed by these rules, such member may return it, and immediately take it out again, unless there has been one, or more applicants for such book, or set of books, during the time he has held it; in which case they must be returned to the Library, and lie two days before the same member can be allowed to take them out for another period.

ART. 7. Any member who may detain a book, or set of books longer than the times prescribed, shall be charged by the Librarian with the sum of 5 cts. per day for each volume, until the same shall be returned or renewed by such member.

ART. 8. If any book or volume of a work be lost, or materially injured, the member so losing or abusing it, shall be liable for, and pay the value of the whole work, which is to be appropriated to the purchase of a new book, or set of books, and the Treasurer is hereby required to call upon him for payment of the same.

ART. 9. The Book Committee shall have a blank paper hung up in the Library Room, on which any member may insert the name of any book or books he may wish purchased for the Library, and such book or books, shall be considered by the Book Committee at their next meeting.

ART. 10. The Librarian shall keep a book, in which he shall charge the fines incurred by members for the detention of books, which book shall be open for the inspection of the members. At each monthly meeting of the Society, the charges for the last month shall be read out, as the current report of the Book Committee. Then, or at the next monthly meeting, pleas for the abatement or extinguishment of fines may be made, and must be decided on by the vote of the Society. After this second time of action, no excuses will be considered; the Librarian shall then transfer to the Treasurer a statement of the fines, to be charged by the latter in the annual account of members.

ART. 11. The Librarian shall give to the Book Committee at least one month's notice of his intention to resign. The Book Committee shall, together with the resignation, submit to the Society a report of the state of the Library, at the time of his resignation, so that the Society may be prepared to accept his resignation, and relieve him from his liabilities, or otherwise, as they may see fit.

SECTION XI.

OF THE FUNDS.

ARTICLE 1. The Society agree to appropriate the several donations, legacies, contributions and fines, intended to be collected and inflicted by the foregoing rules, towards raising a fund for the purpose of extending the Medical Library, procuring anatomical preparations, and a philosophical apparatus, and for such other purposes as are connected with the improvement of medical science, and the objects of this institution.

SECTION XII.

OF NEW LAWS.

ARTICLE 1. No new laws shall be made, nor any of the foregoing altered or amended, unless there be twelve members present; nor until the same shall have been proposed in writing, debated at the next or subsequent meeting, and decided by a majority of two-thirds of the members present.

SECTION XIII.

GRANTING LICENSES.

ARTICLE 1. No license to practice physic and surgery in this State, shall hereafter be granted by the Medical Society, except upon the face of a diploma from some Medical College; and any one desirous of obtaining such license, shall make application by letter, accompanied by his diploma, and directed to the President and Members of the Medical Society of South-Carolina; whereupon the Society, if satisfied with the authority of the same, and upon payment of five dollars, as a fee, shall order a license to be granted. The Society may also grant licenses to carry on the business of an apothecary upon proper application being made, and on the

payment of the same fee, to any who may present satisfactory evidence of their qualifications.

ART. 2. No certificate granted from the Medical Society to any person to practice physic and surgery, or to carry on the business of apothecary in this State, shall be valid, unless it be signed by the President and Secretary of the Medical Society, and have the seal of the Society affixed thereto.

ART. 3. The form of the license shall be as follows :

STATE OF SOUTH-CAROLINA :

Be it known to all whom it may concern, that the Medical Society of the State of South-Carolina, in compliance with, and under the authority of the Acts of the Legislature of this State, "regulating the licensing of physicians, &c. and for other purposes therein mentioned," passed the 18th December, 1817. Being satisfied with the qualifications of ———, do by these presents, give and grant unto him full permission and license to practice medicine and surgery, in all its branches, (or, if an apothecary, to carry on the business of apothecary and druggist,) in this State.

In witness whereof, we have hereunto set our hands, at Charleston, in the State aforesaid, this ——— day of ———, in the year of our Lord ——— and ——— of the Sovereignty of the United States of America.

A. B., *President Medical Faculty.*

[SEAL.]

E. F., *Secretary Medical Society.*

ART. 4. The Secretary of the Medical Society shall, upon delivering the license granted by the Society, receive the fees allowed by law, and give them over to the Treasurer for the use of the Society.

ART. 5. The officers of the Medical Society shall consider it their duty, ex-officio, to obtain evidence and prosecute any one violating or neglecting to comply with the requisitions of the act. The expenses to be defrayed by the Medical Society.

SECTION XIV.

The members of this Society shall wear crape on the left arm, for one month after the decease of a member.

RESOLUTIONS.

1. A member of the medical profession elected Librarian, shall be considered as elected at the same time a member of the Society, and shall be exempted from paying the initiation fee and annual contributions, so long as he shall continue Librarian.

2. No member, except the Secretary, shall be allowed to take the Minute Book from the Society room, unless permitted to do so by a vote of the Society.

3. It shall be the duty of the Standing Committee on accounts, to examine all bills and accounts presented to the Society, previous to their payment.

4. In all actions commenced by the Treasurer against members for arrears due, the ultimate legal remedy of enforcing judgment shall not be carried into effect, unless by specific resolution of the Society in each instance.

5. That the Minutes be read from the rough copy previous to their insertion in the Journal.

6. That from and after this date, the annual dinner shall not cost more than four dollars per head.

7. No member shall be allowed to take out more than two numbers of a monthly or weekly, or one of a quarterly periodical at a time.

8. That when wanted for binding, the Librarian may call in any numbers that have been taken out, whether due or not.

9. As some members have refused to pay the fines incurred by the detention of books, we deem it but an act of justice to those who pay such fines, and of proper dignity on our part, to refuse to such refractory members the use of the Library until their fines be paid; and that the Treasurer be required to report such members to the Librarian, who is hereby authorized to refuse them the privileges of the Library.

10. It is desirable that we should, as soon as practicable, follow the example of the medical practitioners in other cities, in having our recipes made up at the apothecaries; and that in all cases where recipes are given, the physician be entitled to charge from fifty cents to one dollar as a prescription; and the better to accomplish this, that this be considered an additional item in the fee bill.

11. In all cases of obstetrics, the amount of compensation for services be regarded as voluntary, *provided* the fee be tendered as soon as the regular term of attendance on the case expires.

12. That application be made by the President of this Society to the "Counsellors of the South-Carolina Medical Association," requesting its admission as a "District Society," under the following conditions, viz: that this Society be admitted with its present charter, by-laws and organization, with all the privileges, rights and powers it at present enjoys, and with the reservation to itself of perfect control over its own members, its Library, funds, and of all trusts whatever which it at present holds, or may hereafter hold.

13. That the "Counsellors of the Association," in consideration of the age and standing of this Society, of the valuable Library and other property which it possesses, and of the trust of which it is the depository, be respectfully urged to make an exception in its favor, and to admit it as "the District Society" of Charleston, under the conditions specified above.

At the regular meeting of the Society, held Sept. 1st, 1849, the President announced that application had been made to the Counsellors of the South-Carolina Medical Association, and that the Society had been received as a District Society, with the conditions above specified, under the name of the "Charleston District Society."

ROPER BEQUEST.

Resolutions to establish a Board of Trustees for the management of the Roper fund, and the hospital connected therewith.

1. That in the opinion of the Society, the erecting of a separate corporate body for the management of the fund and hospital is inexpedient, and contrary to the spirit of the will, (which leaves the fund in trust to the Society itself and not to a separate corporation,) and is only to be resorted to in case of absolute and unavoidable necessity.

2. That five (5) members of the Society constitute a Board for the management of the property, and in due time for the erection and government of the hospital: that the President

of the Society be ex-officio, Member and Chairman of the Board: that the other four members of the Board be elected by the Society by ballot, to serve for four years, and that they be re-eligible at the expiration of their term.

3. That the Board have full power to make all rules and regulations necessary to enable them to carry out the object of Mr. Roper's will, and that they report to the Society at each anniversary.

4. That in order to give greater permanency and stability to all measures taken in relation to this matter, and to prevent alterations and changes being hastily and unadvisedly made, that no resolution adopted by the Society in relation to the management of the property left by Mr. Roper in trust to the Society, shall be repealed, altered or amended, unless there be twelve (12) members present, nor until the same shall have been proposed in writing, debated at the next or subsequent meeting, and decided by a majority of two-thirds (2-3) of the members present, as prescribed in Section XII of the Constitution, for amendments and alterations of the Constitution itself.

5. That when the Board appointed as provided above, have digested a plan for the erection of the hospital, the election of a physician and general management of the institution, they report the same to the Society to be discussed, altered or amended; and that when once adopted by the Society, such plan shall not be repealed, altered or amended, except on the conditions stated in the last resolution.

THE MEMBERS
OF THE
MEDICAL SOCIETY OF SOUTH-CAROLINA,
RESIDING IN CHARLESTON,
TO ITS INHABITANTS.

AS THERE is no established rule for regulating Medical Charges, we, in the said Society, who reside in the city, with a view of preventing disputes, have thought proper to state to the public, our rates of charging. In fixing these, we have been guided by a spirit of moderation; and have rather retrenched from, than added to the usual prices, which have been, for years past, paid us for our services. The subject has been viewed on both sides, as involving the essential concerns of our friends and patients, as well as our honour and interest. Much time and money must be expended in acquiring a stock of knowledge, sufficient for honestly practicing physic. People of other professions, have a portion of time every day to themselves; but Physicians must submit to have their hours of meals, of social intercourse, and of rest, disturbed, in all the varieties of weather, by sudden calls, requiring attention. On the other hand, it has been duly considered, that the times are hard, and money scarce. We have with pleasure, seen other orders of men grow so rich by their labour, as to be able in a moderate life-time, to make a comfortable provision for their families, but have never known two Physicians in Charleston, who made themselves independent by their practice. Instead of this, we can recollect several, who, though well skilled in their profession, have not, in the course of twenty years' industrious and extensive business,

cleared enough thereby, to leave their widows and children in tolerable easy circumstances. The same may be affirmed of most of the Practitioners of this city now living; for, in case of their death, all that has been saved from their practice, and all that is ever likely to be collected from their books, would be a scanty pittance for those for whom they are bound, by the tenderest ties, to provide. This is particularly true at the present juncture, when juries, unacquainted with medicine, take upon themselves to reduce the bills of Physicians one half, though the charges are not only reasonable, but undisputed. While such verdicts are given by juries, Physicians are denied that protection of property, which all other citizens enjoy. They may toil through life without being able to count on anything; for by the same rule that one half of their accustomed charges is taken away, the other half may also be taken. A mechanic, when his accounts are disputed, can always have them taxed by persons of his own profession, and of course by those who are acquainted with the propriety of his charges; but a physician has no security against having his bill reduced one half, by persons who are neither judges of his trouble nor of his merits. Therefore, in self-defence, with a view of securing something for our families, and preventing disputes that may involve our reputatation, when we are no longer on the stage of life to vindicate our claim to the character of honest men, we inform the public that we think ourselves equitably, and in good conscience entitled to receive, for our services, agreeably to the subjoined rates. To patients who are unable to pay, we will, as heretofore, continue to extend every attention which humanity requires; but from all others who may think proper to employ us, we expect payment of our bills, without dispute, whenever they do not exceed the following rates of charging, viz.:

* Currency 4s. 8d. to the Dollar.
